

Data & Reporting

What Manual Reporting Is Actually Costing You

The calculation most businesses never do.

Swipe to read →

4 hours a week.
52 weeks a year.

208 hours rebuilding
the same report.

→ **At £25/hr: £5,200/year on one report.**

Decisions made on stale data.

The report takes a week.

The problem happened last Tuesday.

→ Late data means late decisions.

Manual = errors.

A formula right last month.
Wrong this month.

→ **Decisions on wrong numbers cost more.**

The maths always works.

Build once: £1,500-£4,000.

Ongoing cost: zero.

→ Payback in under 12 months.

Stop rebuilding the same report.
